

Event Description Report

Part 1: Event Description

Event Name: Deep Learning IndabaX Burundi

Start date:27/06/2023

End date :29/06/2023

Location: Bujumbura,Burundi

Host institution:East Africa Star University

Event Overview:

Deep Learning IndabaX Burundi 2023 was organized on the theme of embracing artificial intelligence for solving our daily challenges. The objectives were to excite Burundian students and researchers to use artificial intelligence to solve different problems affecting our society.

Deep Learning IndabaX Burundi 2023 received overwhelmingly positive feedback from attendees, with many expressing appreciations for the insightful discussions, practical workshops, and valuable networking opportunities. Participants found inspiration from the showcased AI projects and were motivated to explore AI integration in their respective fields.

Overall, the event successfully achieved its objectives of promoting AI adoption and understanding its potential to address daily challenges, making it a significant step forward in embracing artificial intelligence for a better future.
